

There's Finally a Choice!

Certified

Barracuda Redtop is a unique redtop which has been carefully created to meet the specific needs for seeding athletic fields, lawns and golf courses.

Certified

Barracuda Redtop establishes quickly and performs well under moderate to low fertility. This variety of redtop seed will grow under a greater variety of conditions than other grass seeds. Barracuda will grow on soils very poor in lime and is drought tolerant.

Certified

Barracuda Redtop is a perennial grass with a creeping habit of growth, which makes a coarse, loose turf. Barracuda is a deeper darker shade of green in color than common redtop.

Barracuda provides a dense turf with excellent mowing qualities.

Certified

Barracuda Redtop has approximately 5,465,060 seeds per pound. The recommended seeding rate is 45 to 90 pounds per acre or one-two pounds per 1000 square feet. Time of seeding recommended is in February through May or August through October.
