SILENE ARMERIA	CATCHFLY	
	TOTAL	100.00%

Due to availability, there may be some changes in species and or percent of species.

Taylor's Dryland Wildflower Mixture is made up of 25 individual species. These flowers are designed to flourish in the drier climates or areas that do not get moisture on a regular basis. The mix is made up of 50% annuals and 50% biennials/perennials to give a wide variety of colorful flowers for the first season as well as following years. The wildflower bed will reach a height of 36 to 48 inches under normal conditions.

Approx. seeds per pound: 748,500

Seeding rate: 4-7 pounds per acre depending on density desired
 1 pound per 7,000 square feet
 If Hydro seeding, seeding rate should be doubled.
