	TOTAL	100.00%

Due to availability, there may be some changes in species and or percent of species.

Taylor's North American Wildflower Mix is made up of 29 species, approximately 60% annuals and 40% perennials. These attractive flowers are designed to grow and do very well in almost any area in the U.S. and Canada. Due to the number of species represented in this mix, it could almost be called an "All Region Mix". The wildflower mix will grow to a height of 30-40 inches.

Approx. seeds per pound: 470,800

Seeding rate: 6-11 pounds per acre depending on density desired
1 pound per 4.700 square feet
