	TOTAL	100.00%

Due to availability, there may be some changes in species and or percent of species.

Taylor's Pacific Northwest Wildflower Mix is designed with the Northwest in mind. The mix is made up of 28 species, approximately 60% are annuals and 40% perennials. The first year will be great show of color with the annuals, and then succeeding years the perennials/biennials will be established to add to the magnificent color show. This mix will grow to 30-36 inches in height.

Approx. seeds per pound: 640,650

Seeding rate: 5-8 pounds per acre depending on density desired
1 pound per 6,500 square feet
